## IDS Introduces Daphne by Lumina: An Allegory in Fine Lighting

**IDS** by **Innovative Design Group**, where opulence meets innovation, emerges as the epitome of luxury lighting. With an innate understanding of the language of light, IDS brings the iconic **Daphne lamp by Lumina to India**. Celebrated for its timeless elegance and unparalleled functionality, the Daphne epitomizes the highest standards of Italian craftsmanship and design innovation.

Originally conceived in 1975 by the visionary mechanical engineer Tommaso Cimini, the Daphne lamp has become a symbol of sophistication and adaptability. Its groundbreaking design features a pivoting diffuser, an articulated arm, and an electromechanical transformer, reflecting

Lumina's philosophy of "Lots of light, not much lamp."

With its sleek, minimalist aesthetic, the Daphine lamp effortlessly enhances a variety of interior settings, from modern offices to contemporary homes. Its versatility makes it ideal for numerous applications, including reading desks, display counters, and **ambient lighting** in hospitality spaces.

The Daphine's iconic status in lighting design is further highlighted by its presence in prestigious museum collections worldwide, such as the Brooklyn Museum, the Musée des Arts Décoratifs in Paris, and the Triennale in Milan. Its enduring appeal testifies to the enduring brilliance of its original design concept.
