

Experion Unveils Eco-Friendly Luxury Residences in Noida

Experion Developers has launched Experion Elements, a new residential project in Noida Sector 45, integrating luxury with sustainability and advanced technology. Designed by Belt Collins and DSP Design, Experion Elements sets new standards in eco-friendly living.

The project features two towers inspired by the five fundamental elements: Air, Water, Earth, Fire and Ether. These elements influence the design, creating a harmonious living environment. The low-density development emphasises sustainability, reducing its ecological footprint while offering high-quality living.

Experion Elements incorporates smart building technologies, including dedicated EV charging stations for each apartment, enhancing convenience and promoting environmental responsibility. This project reflects Experion's commitment to innovative and sustainable residential solutions.

IDS Introduces Rogue by Lorenzon: A Masterpiece in Modern Lighting Design

Innovative Design Studio (IDS) announces the launch of Rogue by Lorenzon, a lighting piece inspired by the opulence of jewels and the craftsmanship of goldsmiths. Rogue features silky colours, rounded shapes, hand-blown glass, clean lines and unique metal finishes, creating a mesmerising play of light. Each element is customisable, allowing for endless creativity and elegant suspensions. Handcrafted by skilled artisans, the piece resembles precious gems, adding a touch of sophistication to any space.

IDS, known for curating exceptional lighting pieces, continues to lead the

transformation of decorative lighting into an expression of individual style. Rogue is suitable for both residential and commercial spaces.

Strot and Driade Bring Iconic Italian Design to New Delhi

Strot, New Delhi's luxury home décor brand, has partnered with Italian furniture giant Driade to introduce a curated selection of iconic pieces to the Indian market. Spearheaded by entrepreneur Sidhant

Lamba, this collaboration aims to redefine opulence and sophistication in home décor.

Driade's collection blends elegance with innovation, using materials like polycarbonate in unexpected ways to create versatile pieces suited for both indoor and outdoor settings. Highlights include the Nemo Chair by Fabio Novembre, a sculptural piece that doubles as furniture and art and the Cocky armchair, a whimsical design by Sfera Ebbasta featuring wing-like armrests and a gold-finished claw base.

Sidhant Lamba's vision for Strot is to merge tradition with modernity, offering clients access to world-class contemporary design. This partnership with Driade is set to elevate the homes and lifestyles of design connoisseurs across India.

'Endangered Spaces' Exhibition Wraps Up a Thought-Provoking Journey

The 'Endangered Spaces' exhibition, featuring works from H el ene Gu et ery's 'Zeitgeist' series and Jayesh Sharma's 'Kushti: The Lost Children of Postmodernism,' concluded its captivating showcase at the Nine Fish Art Gallery in Byculla, Mumbai

Curated by Dr. Anurag Kanoria, the exhibition invited visitors to explore the fragile intersections of tradition, modernity, and globalisation through the lens of these two distinct yet intertwined artistic narratives. Gu et ery's haunting images of endangered landscapes urged viewers to ponder the fragility of our world, while Sharma's intimate portrayal of the fading world of Kushti wrestlers offered a poignant reflection on tradition and change.

The collaborative video installation, born from the shared vision of the two artists, further deepened the dialogue around these themes, maintaining the integrity of their individual works while forging new artistic pathways.
