# Innovative Design Studio Unveils the Divina Collection by Lorenzon: A Masterpiece in Lighting Design

Innovative Design Studio (IDS), a leader in luxury lighting, introduces the Divina Collection by Lorenzon—a stunning blend of elegance and modern simplicity that redefines interior spaces. Known for pushing boundaries in design, IDS presents this collection as a perfect marriage of old-world craftsmanship and contemporary aesthetics.

The Divina Collection takes inspiration from the iconic Murano glass designs of the 1920s but brings them into the modern era with customizable options. Each piece boasts handcrafted lampshades paired with metals and ceramics in a striking array of colour combinations. The lightweight design and endless customization possibilities allow the Divina Collection to transform any interior, enhancing the beauty of the space below with a refined touch of timeless luxury.

What makes the Divina Collection unique is its ability to seamlessly fuse tradition with innovation. These lighting fixtures are not just functional elements but works of art that add sophistication and charm to any setting. Whether in a home or a commercial space, the collection elevates the ambience, creating an experience of luxury that feels both modern and classic.

Innovative Design Group (IDG) believes in transforming spaces into artistic expressions through the perfect balance of technology and aesthetics. With a holistic approach to lighting, IDG integrates interior and exterior elements to craft environments that exude elegance, sophistication, and purpose.

Founded by Vikram Jain, IDS is a part of the Innovative Design Group and specializes in curating exclusive lighting solutions for true design connoisseurs. Under the leadership of CEO Aryaman Jain, IDS collaborates with renowned global brands to offer awe-inspiring lighting fixtures that blend art and technology. Every light from IDS is a masterpiece, reflecting a passion for design and the transformative power of lighting.
