ARCHITECT
and INTERIORS INDIA

A testament to refined elegance and functional brilliance, the Bell collection is set to redefine lighting aesthetics for modern interiors.

Inspired by the timeless silhouette of a bell, this lamp is a harmonious blend of minimalism and sophistication. Designed by manuel e vanessa Vivian to evoke warmth and a sense of familiarity, its fluid contours create a soothing interplay of light and shadow, making it a perfect centerpiece for residential, commercial, or hospitality spaces.

The Bell collection, offered in pendant and ceiling versions, features a durable painted aluminum frame and an energy-efficient LED light source. Its customizable colors and finishes ensure seamless integration into diverse interiors. Enhanced by flame-retardant pongé fabric, the lamp also functions as an acoustic solution, reducing noise by up to 59% with an Equivalent Sound Absorbing Area of 4.63, making it a perfect blend of style, functionality, and sensory comfort.

Its ability to seamlessly integrate into various settings while standing out as a sculptural element makes it a prized addition to any interior.

About Innovative Design Group

At IDG, we believe that a space transcends its physical dimensions, becoming an amalgamation of artistry, technology, and purpose. Rooted in the fusion of technology and aesthetics, our expertise extends beyond interiors, encompassing the intricate interplay of crafts and architecture.
